Each member shall be responsible to keep their shoreline stabilization structures in good and working order free of any material defects. The goal of these structures is to keep silt out of the lake and avoid shoreline erosion that could affect other member's property.

(b) Enforcement

Due to the ongoing concerns of silt and shoreline erosion the Board may enforce this Section of the bylaws. The Board may take any required legal action, after consultation with its attorney, to enforce compliance with this Section upon a majority vote in favor. Amended May 1991, January 1994, 1996, 2000, 2001, 2006 updated 2009, 2017, 2018, 2020, 2021

LAKE ARLANN HOMEOWNERS ASSOCIATION
SAFETY RULES & OPERATION PROCEDURES & REGULATIONS

A. GENERAL

We are all concerned with the safety of our lake regardless of whether our interest is in swimming, boating, jet skiing, fishing, water skiing, or snowmobiling. It is, therefore, very important that we practice common sense and courtesy, and that we respect the rights of others when participating in water sports. Following this policy and the basic rules outlined below, we feel that our lake will be a safer place for our families and friends.

The boats on Lake Arlann are subject to the Illinois Boat Registration and Safety Act. That Act includes certain registration, certification, equipment requirements, and certain operating procedures and regulations. The owners of all boats on Lake Arlann must comply with the State mandated requirements, whether arising under the Act or under rules and regulations adopted by the Illinois Department of Natural Resources by the Act.

The Safety Rules and Standard Operating Procedures and Regulations adopted by Lake Arlann Homeowners Association supplement the State mandated requirements. Be certain that your boats, the equipment on your boats and the use of your boats comply not only with the State mandated requirements but also with Lake Arlann Homeowners Association's requirements.

If a homeowner or a homeowner's guest violates any Safety, Operating Procedure, and/or Regulation, the homeowner could be fined \$100.00 per violation and the amount of the fine would be doubled for each violation thereafter. The homeowner will also be required to pay any reasonable legal fees and costs the Association might incur for collection of such fine.

Be sure that you, your family and any friends or guest who will be skiing or driving your boat, read and are familiar with our safety rules. Remember you are responsible for and liable for the action of your guest. Keep this copy for future reference. Extra copies can be obtained from any member of the Board of Directors.

The "Canal" between Sausalito Bay and Gingoteague Bay and Cape Court are NO WAKE areas!!!

B. SWIMMING

1. Swim parallel to the shore instead of out into the lake.
2. Don't swim alone.
3. Do not swim after dark. Remember nighttime boaters can not see you.
4. Learn to swim and teach your children to swim.

C. BOATING

1. Drive counter-clockwise around the lake.
2. Stay at least 100 feet from shorelines, docks and swimmers.
3. Do not "buzz" other boats, swimmers, fishermen, skiers or docks. "BUZZING IS VERY DANGEROUS AND IS PROHIBITED."

4. No person under 10 years of age may operate a motorboat. A person 10 or 11 years old may operate a motorboat if they are accompanied by a parent or guardian or a person at least 18 years old and designated by the parent or guardian. A person 12 through 17 years old may not operate a motor boat unless they have a Boating Safety Certificate authorizing them to operate motor boats.
5. If you cannot swim, wear a life jacket while fishing or riding in a boat or on a jet ski. A possible alternative to this is to tie a life jacket or cushion to you with a 3 or 4 foot length of cord, so in an emergency if you end up in the water, the flotation device comes in with you
6. A non-powered craft (row boat, canoe, or sail boat) has the right of way at all times.
7. A non-powered craft should use discretion so as not to create a dangerous traffic jam of larger boats and skiers.
8. When two crafts are approaching each other head-on, each veers to the right. Stay on the right side of the "road", just as you would on the highway.
9. Grant the right of way to a boat approaching from an angle on your right hand side. Again, this is the same application as the right of way rule at a street intersection in a car. If the boat approaches from your left, you have the right of way.
10. In overtaking and passing another boat, it is your duty to stay clear. The boat being overtaken has the right of way and the choice of direction.
11. Don't overload your boat. This is a very dangerous violation.
12. Abide by the maximum horsepower limit as specified by our By-laws.
 - a. Outboard engine 115 HP (Published maximum BHP at rated RPM)
 - b. Inboard engine 135 HP
13. Abide by the maximum boat sizes as specified by our By-laws.
 - a. Powered boats (excluding pontoon boats)..... 18 feet
 - b. Pontoon boats.....25 feet
 - c. Non-powered boats.....18 feet
14. Abide by the maximum speed limits as specified in our By-laws.
 - a. 10 AM to Dusk 30 MPH
 - b. Dusk to 10 AM 5 MPH
15. LAHA boat registration decals, a must for all boats, are to be placed on the right front sides of the boat at the rear of the registration number.
16. During times of high water table, a "no wake zone" will go into effect. Notifications will be made via email, social media and placement of signs on the lake.

D. SKIING

1. Wear a life jacket or belt at all times when water skiing or jet skiing.
2. There must be two (2) capable people in the ski boat. The passenger handles the ski rope, watches the skier and watches the rear of the boat. The driver watches the front and the side of the boat.
3. Don't follow too close to another skier. Stay at least 100 feet away.
4. When a skier falls, the ski boat/jet ski should immediately go back to cover him. If for some reason a skier is alone in the water he should hold up a ski so other boats and jet skis will be able to see him.
5. Skiers should land parallel to the shore. Do not try to land perpendicular to the shore or towards a dock.
6. When in the water don't get close to the prop.
7. Water skiing is prohibited later than one-half hour after sunset.
8. Orange flag to be displayed while towing in accordance with state law.

E. FISHING

1. LAHA follows all guidelines from IDNR rules & regulations but are subject to change at the board's environmental committees discretion. Refer to the board for any further guidance. Members and their guests must have a current State of Illinois fishing license per IDNR guidelines.

F. NON POWERED WATERCRAFT

1. All non-powered watercraft must follow any and all IDNR rules & regulations.
2. Non-powered watercraft do not need LAHA stickers, but it is recommended that they have some sort of clear, easily identifiable marking. It is suggested that it be the owner's lot number or contact information.
3. Travel parallel to the shore.

G. JET SKIING (Personal Watercraft Rules) PWC rules

1. Except in an emergency, a person under the age of 14 may not operate or be permitted to operate a PWC unless there is another person 18 years of age or older on board.
2. Each person aboard must be wearing a U.S. coast guard approved life jacket.
3. If the PWC is equipped with a lanyard type engine cutoff, the lanyard must be attached to the operator's person, clothing or life jacket.
4. Operation is not permitted from 1 hour before sunset to one hour after sunrise unless proper navigation lights are displayed.
5. When within 100 feet of any dock, swimmer, swim raft or non-motorized boat, your speed must be Slow-No-Wake. Thus, Slow-No-Wake is the slowest possible speed necessary to maintain steerage, but in no case greater than 5 mph.
6. No person shall operate a personal watercraft in a negligent manner. The following are examples of negligent operation.
 - a. Unreasonable jumping or attempting to jump the wake of another vessel.
 - b. Following within (100) one hundred feet of a water skier.
 - c. Weaving through congested vessel traffic.
 - d. It is unlawful to chase or harass wildlife.
 - e. Exceeding the speed limit of 30 mph on the lake.
 - f. PWC must operate at least 50 feet from rafts, docks, occupied bathing areas and the shoreline.

H. WINTERTIME

1. Snowmobiles, motorbikes and all other vehicles operating on the ice follow the same general rules as boats.
2. Ice safety
 - a. Under no condition should a hole larger than six inches in diameter be chopped in the ice. A large hole, partially frozen over could have disastrous effects when encountered by children, pets, or skaters.
 - b. When the ice first freezes the ice in the shallow areas along the shore are often thicker than the deep areas.
 - c. If the lake level rises rapidly, the shore area will be open water or thin ice.
 - d. Underground springs keep the ice thin in some areas or it may not freeze at all. This will result in open water surrounded by relatively thick ice.
 - e. Holes in the ice can result from the reflected rays of the sun on metal objects, such as barrels. This frequently happens around docks.
 - f. Watch for ducks—even when the ice is very thick, they will maintain an area of open water.
 - g. For the safety of the membership, no aerator can open water more than 50' from the high water mark and not exceed beyond the legal boundaries.
